An aerial view of a high ropes course set in a dense forest of tall, thin trees. The course consists of numerous wooden platforms, bridges, and walkways suspended from the trees by ropes and cables. Several people are seen at various stages of the course, some standing on platforms, others crossing bridges, and one person climbing a vertical rope ladder. The scene is brightly lit, suggesting a sunny day. The year '2016' is overlaid in large white text on the left side of the image.
